

What is the difference between Xinchejian and XinFab ?

Xinchejian and Xinfab are both non-profit organizations. Our communities are able to exist thanks to donations, sponsors and the effort of our members who help organize and grow our space into the amazing maker community it is today.

Hello, we are Xinfab!

Membership

1 month	180 rmb
7 months	1080 rmb (1 month for free)

As a member, you can come here everyday, work on your project, and use our machines. **Machine fees are taken out of the monthly membership fee** until 180 RMB is reached. After that, you pay per time spent or material used (see our website for more information).

Got a membership? Thanks for your support! See you around at Xinfab!

wechat

Xinfab is a MIT affiliated fablab where people can use digital manufacturing tools such as 3D printers, CNCs, laser cutters, and more. We are a community of makers as well as a service provider – send us your design and we can print and/or cut it for a fee.

Machineroom

In the machine room, we have hand-tools and machines for Xinfab and Xinchejian members to use.

Hello, we are XinCheJian

Xinchejian is a hackerspace. Hackerspaces are communities where people who are interested in physical computing and technology can meet and collaborate on projects.

Membership

1 month	100 rmb
6 months	600 rmb

Got a membership? Thanks for your support!!

With a membership you can come and work here everyday, you can also use xinfab tools, but need to pay for the use of the machines, and only during Xinfab opening hours.
